

Melanie Green

Digital Communications & Web Content Specialist

[07887 935990](tel:07887935990) | [Email](#) | [LinkedIn](#) | [New Milton, Hampshire](#) | [Online CV](#)

Digital communications and web content specialist with 10+ years of experience managing websites, digital content, CMS platforms, accessibility compliance, analytics, and internal communications. Skilled in collaborating with developers, stakeholders, and content teams to improve user experience, optimise digital journeys, and deliver engaging, accessible content. Experienced across content operations, SEO, analytics, intranet management, and digital campaign support, with hands-on knowledge of HTML, CSS, GitHub, and modern CMS platforms.

Technical & digital skills

Web content & CMS management

- Maintain and optimise content across headless CMS (Kontent.ai) and legacy/monolithic platforms, ensuring accessibility, consistency, and quality.
- Manage content publishing, governance, and page optimisation to improve user experience and engagement.
- Collaborate with developers using DevOps and Agile methodologies, writing user stories and managing tickets through to release.
- Design, maintain, and optimise a [WordPress website](#), driving organic traffic growth through SEO and increasing client enquiries from search engine visibility.
- Update and maintain web content using HTML/CSS in VS Code with GitHub version control, including hosting and iterating on [live examples of my work](#).
- AI-assisted development - confident using AI agents to generate, refine and troubleshoot HTML/CSS and streamline website updates.

Analytics, SEO & performance insight

- Use GA4, Google Tag Manager, and Google Search Console to monitor performance and identify optimisation opportunities.
- Build and maintain Data Studio dashboards to automate reporting across web, social, and email channel.
- Develop and maintain Power BI dashboards and automated reporting tools to improve data visibility, comms planning, cross-team collaboration, and performance tracking.
- Analyse user behaviour using Hotjar and Microsoft Clarity to improve digital journeys and reduce friction.
- Identified non-compliant cookie usage and collaborated with developers to implement a compliant solution. Now supporting ongoing compliant audits with a data consultant.
- Conduct SEO and site health audits using Screaming Frog, resolving technical issues and improving search performance.
- Monitor site search behaviour using Funnelback / Squiz to identify content gaps and user needs.
- Provide data-led insights to identify trends, anomalies, and opportunities for continuous improvement.

Accessibility & content quality

- Champion accessibility best practice across digital channels and support ongoing improvements to WCAG compliance.
- Develop Easy Read content in collaboration with accessibility partners (Shaw Trust).
- Contribute to accessibility audits and implement improvements across websites and digital platforms.
- Apply accessibility standards within design workflows (including InDesign best practice).

Microsoft 365 & workplace tools

- Microsoft Word, Excel, PowerPoint, Outlook for content creation and communication.
- SharePoint and OneDrive for content management, collaboration, and file control.
- Microsoft Teams for stakeholder communication and coordination.
- Microsoft Forms for surveys and feedback collection - reduced support queries through customer journeys.
- Power Automate for workflow automation and process improvement.

Digital content, media & communications

- Adobe Photoshop for digital asset creation and campaign support.
- Adobe Acrobat Pro for accessible PDF creation.
- Clipchamp and CapCut for video creation and editing.
- Vimeo for video hosting and performance tracking.
- Orlo for social media management (Facebook, LinkedIn, X).
- Poppulo and NewZapp for internal and external email communications.
- Google Business Profiles for review management and updates.
- QR code creation and campaign implementation for digital journeys.
- PowerPoint for presentations and animated digital content.
